TOP 10 INSPIRING LEADERS OF 2022

Sidewalk Side Spirits came into being because of the Covid-19 pandemic. John Eason was the US CEO of a Tequila company whose business was primarily on-premise. When the bars and restaurants closed, the business ground to a halt. To conserve financial reserves, Tromba did what many small companies were forced to do. It's ownership team and senior management endured salary cuts and employees were furloughed. During this challenging time, I had an idea for a brand. "My partners Max Messier and Lauren Myerscough, the owners of Cocktail & Son's had a King Cake Cocktail Syrup. I thought that would pair exceptionally well with a rum cream product."

Leading the way in innovation!

Just like our mash build, we make every effort to be a truly special product that is like no other whiskey or moonshine you've ever experienced.

We do not infuse our shine to add our fruit flavors like most others. We have found a way to NATURALLY flavor our products without leaving fruit in the bottle, which tends to spoil after.

Customize your own moonshine with up to 400 different flavor combinations!

PRE WWI COGNAC

Privilege, Reserve du Prince

At the outbreak of World War I, the mobilized French growers walled up their cellars to preserve their treasure from German invasion but unfortunately many never returned. Privilege 'Reserve du Prince' originates in an exhumated cave. The inheritor insisted upon remaining anonymous for that was laid down in an undetermined time by his grandfather who disappeared in Verdun's battle in 1917. This was confirmed to us by the most respected and licensed appraisers in Cognac. After a long tasting, they all agreed that Privilege 'reserve du Prince' had remained unviolated since it was stored in casks long before World War I.

WELCOME TO THE MINISTRY OF RUM

Dedicated to the Understanding & Appreciation of the Noble Spirit – RUM

Proud Suppliers of Hamilton Rum!

In the world of fine rums, Ed Hamilton needs no introduction. He is the man behind the Ministry of Rum – a line of hand-selected, pot still rums from St. Lucia and Jamaica.

A modern-day pirate of sorts, Hamilton's career in rum officially started after years of living aboard his sailboat called Matahari in the Caribbean running rum from St. Thomas to Puerto Rico (a smuggler, if you will) and visiting distilleries in the 1990s. He has since carved out his place as one of the world's foremost experts on island spirits. In fact, his two books *Rums of the Eastern Caribbean* and *The Complete Guide to Rum: An Authoritative Guide to Rums of the World*, published in 1996 and 1997 respectively, are regarded as the most comprehensive sources on the subject. He was also one of the first to champion transparency in the production process of rum, meaning his rums are made without additives (save for water and, in some instances, natural, sugar-based caramel coloring) and bottled unfiltered. He spends most of his time consulting and running his import business, and his time sailing in the islands is limited.

Hamilton Rum for the Home Cocktailler

The latest Hamilton blend crafted and bottled specifically for Spike's Breezeway Cocktail Hour, a highly regarded YouTube show with a passionate audience of tiki and home bartender enthusiasts.

<https://www.youtube.com/@BreezewayCocktailHour>

After several appearances on the show, Ed agreed to work with Spike and his audience to blend a rum that would add another dimension to daiquiris, long drinks and the home bar. Blending his Jamaican Pot Still Blonde and White Stache, at 42.5% ABV, the Breezeway Blend has a slight straw color and notes of ripe banana and tropical fruit on the palate leading to a clean smooth finish, the signature of Hamilton rums.

Grass Skirt Blend for the Ultimate Mai Tai

Ed Hamilton has dedicated decades of his life to importing forgotten about rum styles into the United States. He has also created new blends to meet the needs of his customers. When Don at Latitude 29 wanted a rum with intense flavors needed in a Zombie but less abv, Ed created the Zombie Blend. The Grass Skirt bar in San Diego wanted all the rums for a Mai Tai in the same bottle, Ed created the Grass Skirt Blend. With Covid this took years longer to complete but Ed persevered.

But I am not a tiki bar?

For non Tiki Bars, Tiki drinks are great in the summertime if you run a golf course or a steakhouse. Classic Mai Tai only requires one ingredient that does not appear in the standard bar setup, orgeat syrup. Get yourself a case of Grass Skirt Blend and 2 bottles of Orgeat and you have yourself 200 Mai Tai.

Grass Skirt Blend is a combination of Jamaican and Demerara styles bottled at 91 proof and is Mai Tai ready.

This liqueur belongs to the ancient Turin culture and tradition. It is based on the famous "Gianduja" chocolate cream, i.e. a blend of cocoa and roasted hazelnuts that has been named after Gianduja, the traditional mask of the Turin carnival celebrated in the commedia dell'arte.

It is the only liqueur produced with 40gr/litre of natural cocoa extract, the only one to be gluten free and dairy free, and with such a low alcohol proportion (15% vol.) as to have an almost undetectable alcoholic note. Bicerin is an exclusive Vincenzi trademark, it is gluten and dairy free and has no final date for consumption, not even when it has been opened.

Chocolate and mint is a timeless combo, and the folks behind Bicerin have clearly recognised that, as they've gone and made a chocolate and peppermint variation of their Bicerin Originale liqueur! This Italian tipple is packed with nutty, chocolatey and minty notes, all finely balanced between themselves. Should do very well drizzled over ice cream, we think...

A gentle 15% liqueur that absolutely nails the unique flavour of the cocktail, all the usual notes of coconut, rum and pineapple are here. This Delicious Pina Colada based Liquor is flavoured beautifully, best served over a single ice cube.

WALTER HANSEL WINERY

Hansel Family Vineyards

RUSSIAN RIVER VALLEY

Our processes are done in a way that each wine is allowed to express its unique character; never compromising the wine's freshness, finesse or texture.

We hand harvest and manually sort; once in the vineyard and once in the winery. The Pinot Noir is destemmed and gravity guides the whole berries into open topped fermenters.

The Chardonnay is whole-cluster pressed into French oak for fermentation. The primary fermentation lasts 2-3 weeks and the malolactic fermentation can last until early spring of the next year.

Every vineyard block is traced from the harvest bins to the barrel to the settling tank before bottling.

Chardonnay

The Estate: produced from the oldest vines, 45 years old, which consist of a Davis California clone and 2 dijon clones plus a selection from Hanzell vineyards. This wine was described by Antonio Galloni as “perhaps the best value in all of wine”.	Case 12 pack	276
The Meadows: produced from the lowest elevation and from 100% selection of Hanzell clone. The most tropical fruit in the lineup.		300
North Slope: produced from a vineyard site that slopes South to North about 35 feet. A field blend of Dijon clone 95 and 76.		322
Cahill Lane: 100% Wente clone. Combination of tiny berries along with plump berries. Soils are mostly sandy but a section is adobe clay.		322
Cuvee Alyce: named after my Mother. This is the richest offering produced from three clones with tiny BB sized berries.		360

Pinot Noir

The Estate: Produced from a variety of vineyard sites and a variety of clones including Swan; Rochioli, 943 and others.	420
North Slope: Produced from 100% clone 115. More of a fruit bomb than most of our wines with exceptional aromas	444
South Slope: Produced from 100% clone 777. Antonio gave the 2021's a 96 rating but was actually very positive about all of our wines.	444
Cahill Lane: produced from a blend of three clones including a Pommard from Rochioli selection.	444
Cuvee Alyce: again, the richest most flamboyant of the line up. Produced from a section of clone 115; 777; and 943.	480

N O T E S

What it is: Vibrant Watch Hill Grenache and dark Sta. Rita Hills Syrah are complemented by unctuous Petit Verdot, a bit of statuesque Happy Canyon Cabernet Sauvignon, and plenty of voluptuous Watch Hill Roussanne - as usual, a kaleidoscope of aromas and flavors from all corners of the Santa Ynez Valley, and in this case with the epic energy of the 2020 vintage..

What it's like: that person whom you've fantasized meeting much of your life pulls up the bar stool next to you and says "hello", Johnny Cash-style, "how's your day going"? Nervously fixing your hair you think

"well shit, a hell of a lot better now...where've you been all my bloody life?...let's get married and start a new one together"...but you know that slow is better, so you say "I'm good, how are you?", Betty Davis-style.

Food: As always, the idea behind Optimist is maximum flexibility. This time of year, Optimist's forward nature would love a Bolognese or mushroom ragout pasta, or one of those epic mortadella sandwiches with the fried egg on top, plus a salad; in the summer, with the top down, just a well-prepared picnic, or a million-dollar burger

*Bossman

S y r a h V i o g n i e r

N O T E S

What it is: Predominantly brooding Sta. Rita Hills' John Sebastian and Donnachadh vineyards Syrah fermented, co-fermented with lovely Watch Hill Viognier, and 60% whole clusters.

What it's like: The determination of people who evidently know exactly what they intend to do and then do it is both fascinating and annoying, such as this wine, which pretty much told us how it wanted to be made..."fine! whatever, it's fine! you can be such layered generosity! Such a bossman, driving your Studebaker, smiling and letting the phone ring. You're also honest, and kind, so I can't argue with you...

Backstory: The young Francois Truffaut was a big fan of Alfred Hitchcock, who was viewed merely as an entertainer at the time. Truffaut approached Hitchcock about doing a two-week long interview from which he made a book that highlighted Hitchcock's cinematic genius and helped to establish his well-earned stature as a serious filmmaker. 2020 Bossman is an homage to both men (who remained close friends to the end...the original bro-mance?).

Food: This Bossman is both energetic like Truffaut and authoritarian like Hitchcock, so classics like Boeuf Bourguignon or Coq au Vin!

Inspired by the beauty and potential of Columbia Gorge and a lifelong infatuation with champagne, Matthias Pippig of Santa Barbara's iconic Sanguis and Andrew Riechers of Oregon's acclaimed Audeant have teamed up to create sparkling wines that capture the area's Alpine effervescence.

We work closely with decades-old dry farmed vineyards planted high above the Columbia in deep volcanic soils that hold the annual rainfall optimally, where wind and elevation combine to a climate ideally suited to grow pristine raw material.

Combining traditional champagne methods with the freedom and creativity of New World winemaking enables us to produce elegantly perfumed, vibrantly effervescent wines that capture the express and beauty of this unique terroir.

We invite you to join our mailing list to secure your allocation of our first three limited-production cuvées, scheduled for release in fall 2023.

Our 2023 SOMM Riesling White Wine is a new addition to our varietals and vintages. Unlike our other varietals, which are exclusively Estate grown, we created this white wine because of a strong demand for this well known German varietal. Our other four wines are a unique look at some popular Franconian varietals, and this wine brings the same commitment to quality, taste, and finish as our others, differentiated by the value of the SOMM label. A delightful first introduction to the quality and the complexity of our winemaking.

RED WINE

COLUMBIA VALLEY

The 2022 Archimage "Reserve" Bordeaux-blend is 55% Cabernet Franc and 45% Merlot, primarily from our estate Binaural Block at Blue Mtn. Vineyard in the Walla Walla Valley and our Estate Block at Red Mtn. Vineyard on Red Mtn. Aged for 20 months in 45% new French oak, it's densely loaded with flavors of red and blue fruits like fresh picked cherries, raspberries, and blueberries, and has gorgeous herbal undertones of green peppercorns and hay. Caramel and cinnamon spice come through on the finish, supported by richly structured and well-integrated tannins along with fresh acidity. Our Archmage is always a cellar candidate and should have a 20-25 year life span, but don't be afraid to open and decant this while young, as you will be richly rewarded by this gorgeous Bordeaux-blend. Don't forget to pair with great food, great music, and great friends. Cheers!

At Fowles, we are a motley crew of raconteurs and entrepreneurs, auctioneers, law men, farmers, hunters and wine makers. From the frontier land, our forefathers (and mothers) founded what is now Bendigo Bank. Since then, we've gone wild, settling into a life on the land.

Vignerons, hunter and farmer, Matt Fowles raises the bar, swapping the vitriol of the courtroom for the vineyards of the Strathbogie Ranges. Matt leads a team of characters making wine with character.

Since the gold rush in the 1800's to the first blush of spring every year since, our team of passionate producers continue to break ground. From our family to our friends, it's our hardworking team behind the scenery that pour everything into making Fowles Wine one of Australia's finest cool climate wine producers and one of Victoria's most welcoming farm, food and wine experiences.

FARM TO TABLE

As dedicated grape and sheep farmers we have deep respect for provenance, husbandry and craftsmanship in food and wine. Straight from the farm, these wines embody our connection to the land and our enjoyment of it through quality food and wine. Farm to Table wines are bright, generous and carefully blended to complement the softer texture of farm raised meat.

The company was among the first to realize the importance of using most advanced growing techniques while respecting the environment. We carefully choose the soil on which to cultivate our grapes, the pure waters with which to wet their roots and the most natural ways possible to make them grow healthy, fragrant and sweet. For this reason we commit ourselves every day to respecting our land, saving precious resources like water, thanks to intelligent irrigation systems, using solar energy with photovoltaic panels installed on all our processing plants and solar panels to heat the water of the production processes, reducing our impact on the environment thanks to efficient sewage treatment.

MANOS DEL SUR

Our philosophy behind the winemaking is to keep the crafted profile of the wine, in order to save the character of each component, representing their origin and the variety as much as possible. The grapes are hand picked by local farmers and their families; the winemaking process is simple and with minimal intervention, finally the blending process of components is carefully made to find our desired wine.
